

Hybrid Polymer Based Sealant & Adhesive

DEALSEAL H blends new Hybrid Technology for a *ONE & DONE* sealant/adhesive for interior and exterior use. It's enhanced UV resistance, along with it's superior bonding abilities, in high moisture environments and wide temperature range applications, make it the "Go To Sealant" with the professional.

Interior & Exterior

Can be applied and tooled in almost all weather conditions, both cold and warm

Fungicide

Resist fungus, mold and mildew growth. Does Not contain isocyanates or solvents and therefore require no special safety equipment.

Paintable

Accepts most water based paints once a skin has formed. (15-20 minutes)

Wet Surface Bonding

Bonds in the presence of moisture and even bonds under water.

High Elasticity

Remains permanently elastic after curing. Combines the strength of polyurethanes and the weather ability of silicone

Superior Bond Strength

Show no cracking, splitting or adhesion failure after many years of exposure to the most trying conditions.

Odorless

Odorless formulation is easy on the installer and homeowner. Excellent for HVAC applications, and interior application.

Fast Curing

Skins in 15 - 20 minutes. Fully cures in 3-5 day, depending on atmospheric conditions.

Easy Clean Up

Uncured product may be removed with alcohol or methyl ethyl ketone (M.E.K.)

Colors Available

White
